Subject: Fwd: ARP RATE PROPOSAL

This rate proposal is ridiculous. It would only anger people enough to move out of the area. I personally could not afford an increase like is being proposed. I am a widow on a fixed income who had hoped to enjoy my retirement years in Arizona. With our wonderful supply of sunshine I opted to lease roof top solar to reduce the price of air conditioning in the Summer months. The new proposal would eat up all of the savings I had hoped to use in order to remain here. The 3-8 peak time use is absolutely unreasonable. And the demand charges would ruin any semblance of enjoying life. It seems to me that APS is wealthy enough not to assign a burden on those of us who could not afford their proposals.

PLEASE re-consider this proposal. I will watch how you vote to determine how I vote.

Sincerely,

Shirley C. Smith
